

Aspects of Climate - Cryosphere

List items that make up the cryosphere.

Why is the cryosphere cold?

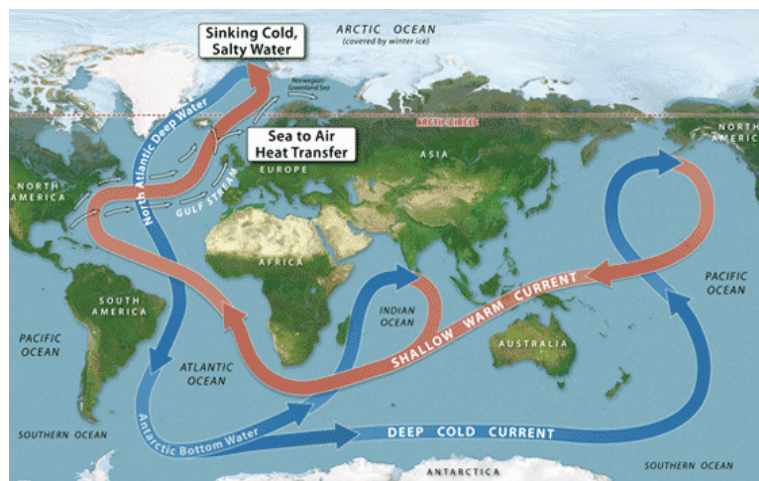

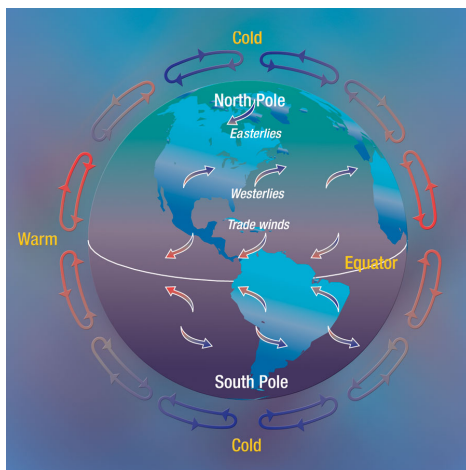

Albedo:

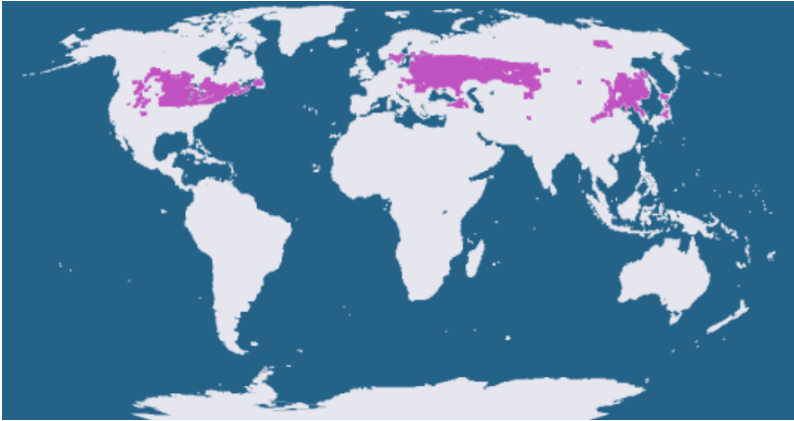

Solar Insolation:

Why/how does the cryosphere affect the climate of Earth?

How does the cryosphere impact the Humid Continental Climate Zone? (i.e. the climate we have in Indiana)

--Let's reverse the question! *How does climate change impact the cryosphere?*--

Why are the ice sheets melting?

Why is Greenland melting faster than Antarctica?

What is the impact of melting sea ice?

How does melting ice affect albedo? What is the impact of an albedo change?

What risk does the melting of the cryosphere have on humans?
